Writing During the Dark Winter Nights

Write-on is back in full swing after all the excitement of book launches and Culture Night. We are hoping that our members will spread the word and ask their families and friends to consider joining our group.

After all, it is a very attractive proposition. Where else would you get an opportunity to share your writing with an enthusiastic audience with the added incentive of having some of your work published in an Anthology in September 2023?

As well as benefitting themselves, new members energise the group. They are the lifeblood that keeps material and thinking fresh and relevant.

We encourage all our members to set a goal for their own writing, but also to consider inviting more and more people to drop in to visit us. If they like what they see, they might consider joining the group on a full-time basis.
